

Dear Customers,

Umbra Group would kindly like to invite you to visit us during the EMO 2011, the premier metal working technology trade fair in Hannover, Germany, from September 19.th until 24.th 2011.

We are looking forward to meeting you in Hall 27, Booth A67 from 9 a.m. – 6 p.m.

Our team would like welcome to you to our booth to share with you our products and innovations:

➤ **Ballscrews for industrial applications**

Apart from standard ballscrew production, Umbra will present a variety of technical solutions for wide-ranging applications from micro-ballscrews (ball Ø 0,6 mm.) up to high-load-ballscrews (ball Ø 42,862 mm.) which feature high-speed, low friction, reduced sound and extreme temperature applications.

➤ **EMA Direct Drive – Electromechanical Actuators**

EMA Direct Drive - Electromechanical Actuators are the result of Umbra's extensive experience and technological innovation in the production of high precision components (ballscrews and bearings), offering Plug & Play solutions. Our products permit users to reach the highest performance levels and unrivaled reliability for long periods of time.

Furthermore our technical team will work with you to develop „tailor-made“ innovative solutions, that will be jointly designed to exceed your requirements.

Auf Wiedersehen in Hannover!
